

REPORT TO: East Lothian Council

MEETING DATE: 22 April 2014

BY: Depute Chief Executive (Partnerships and Community Services)

SUBJECT: East Lothian Local Fire and Rescue Plan 2014-2017

1 PURPOSE

- 1.1 To present Council with the East Lothian Fire and Rescue Plan 2014-2017.

2 RECOMMENDATION

- 2.1 The Council approves the East Lothian Fire and Rescue Plan 2014-2017.

3 BACKGROUND

- 3.1 There is a statutory requirement in the Police and Fire Reform (Scotland) Act 2012 for the Local Authority to approve both the Local Police and Fire and Rescue Plans before they can be published.
- 3.2 The East Lothian Fire and Rescue Plan 2014-2017 has been produced by the Scottish Fire and Rescue Service Local Senior Officer for East Lothian (Appendix 1). The Plan provides the basis for strategies to be followed by the Fire and Rescue Service in East Lothian over the next three years. There has been consultation on the draft plan. The Safe and Vibrant Communities Partnership considered and endorsed the draft of the Plan at its meeting on 10 February 2014.
- 3.3 The key priorities outlined in the Plan are:
- Reduction in Dwelling Fires
 - Reduction of fire casualties and fatalities
 - Reduction of deliberate fire setting (not including dwellings)

- Reduction in road traffic collisions
- Reduction of unwanted automatic fire alarm signals.

3.4 The Plan provides the basis for scrutiny of the Fire and Rescue Service's performance by the Safe and Vibrant Communities Partnership.

4 POLICY IMPLICATIONS

4.1 The East Lothian Fire and Rescue Plan 2014-2017 will make a major contribution to the achievement of key outcomes in East Lothian's Single Outcome Agreement, in particular, but not exclusively, the outcome: 'East Lothian is an even safer place.' Specifically the Plan is the main strategy for achieving the contributory outcome: 'There are fewer fires in our homes, which result in death or injury.'

5 EQUALITIES IMPACT ASSESSMENT

5.1 This report is not applicable to the well being of equalities groups and Equality Impact Assessment is not required. However, the Fire and Rescue Service has carried out an Equalities Impact Assessment on the East Lothian Fire and Rescue Plan.

6 RESOURCE IMPLICATIONS

- 6.1 Financial - none
- 6.2 Personnel - none
- 6.3 Other - none

7 BACKGROUND PAPERS

7.1 Draft East Lothian Fire and Rescue Plan 2014-2017

DRAFT FOR CONSULTATION.

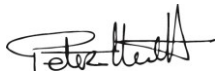

**LOCAL FIRE AND RESCUE PLAN
For
EAST LOTHIAN
2014 – 2017**

FOREWORD

Welcome to Scottish Fire and Rescue Service's (SFRS) local delivery plan for East Lothian. I have the responsibility for preparing this plan, securing the agreement of the Local Authority to it and being held to account for the SFRS performance in East Lothian. The plan, and indeed our strategies for service delivery are clearly aligned to the Community Planning Structure, as it is through building on our partnership activities that we will continue to contribute to the delivery of sustainable improvements in the safety of the communities we serve. This reflects our stated purpose as set out in our Strategic Plan.

We will continue to analyse both historical and predictive activity, and socio-demographic data and trends, to target resources to where they are most required and work to reduce inequalities across the area. It is our duty to consider the strategic priorities for SFRS in the context of local circumstances and we remain committed to delivering local solutions where the community requires the most assistance. Through working in partnership with organisations to gain a shared understanding of local issues we will work together to deliver solutions without duplication of effort to help to build strong, safe and resilient communities within East Lothian.

I am committed to ensuring that our services are delivered with the dignity and respect of everyone in mind and with consideration of the rich diversity of communities across East Lothian in supporting both community and firefighter safety.

**Peter Heath, Local Senior Officer
East Lothian, Midlothian & Scottish Borders**

Introduction

This plan provides information on the Scottish Fire and Rescue Services (SFRS) priorities in relation to East Lothian and how their contribution to community safety will be measured. The Community Planning Partnership arrangements that exist across East Lothian are the overall framework within which the SFRS delivers its services to local communities. By working with others, we aim to strengthen our connection with local authorities and other partners to ensure we meet the aspirations of the communities we serve.

The SFRS strategic Plan 2013-2016 sets out the four key aims of the SFRS and supports the SFRS Framework. This local plan takes full account of the aims and performance measures contained within these documents and the wider priorities of the local authority Community Planning Partnership.

The direction is supported by National strategic objectives to make Scotland a wealthier & fairer, smarter, healthier, safer and stronger and greener place. Through a concordat between the Scottish Government and the Convention for Scottish Local Authorities (COSLA), the strategic objectives have been extended into single outcome agreements, which include indicators and targets that provide the framework for how local authorities and their community planning partners such as the Scottish Fire and Rescue Service will deliver services.

In addition to the performance framework, compliance with legislation governing the SFRS, such as the Police and Fire Reform (Scotland) Act 2012 and the Fire and Rescue Service Framework for Scotland 2013 require the SFRS to deliver core services. These include, prevention and protection, enforcement of fire safety legislation, firefighting, fire investigation and rescue from a range of other hazardous situations.

The Local Senior Officer leads a team of local managers whose job it is to work within local communities and ensure that the SFRS plays its full part in delivering better outcomes for communities and contributing in a positive way to reducing inequalities in society.

The local fire and rescue plan is a plan setting out:

- Priorities and objectives for SFRS in connection with the carrying out in the local authority's area of SFRS's functions,
- The reasons for selecting each of those priorities and objectives,
- How SFRS proposes to deliver those priorities and objectives,
- In so far as is reasonably practicable, outcomes by reference to which delivery of those priorities and objectives can be measured,
- How those priorities and objectives are expected to contribute to the delivery of any other relevant local outcomes which are identified by community planning,
- Such other matters relating to the carrying out of SFRS's functions in the local authority's area as SFRS thinks fit.

Strategic Assessment

A strategic assessment for the SFRS's activities in Scotland established the type, frequency and impact of incidents that we attend. With this assessment in place the Local Senior Officer for East Lothian can effectively identify key priority areas for the SFRS to target its resources at a local level.

National Assessment

The Scottish Government within their National Performance Framework have identified 16 National Outcomes they wish to achieve. Through delivery of this Local Plan the SFRS in particular will contribute to the following Outcomes:

- **National Outcome 1:** We live in a Scotland that is the most attractive place for doing business in Europe.
- **National Outcome 4:** Our young people are successful learners, confident individuals, effective contributors and responsible citizens.
- **National Outcome 6:** We live longer healthier lives.
- **National Outcome 8:** We have improved the life chances for children, young people and families at risk.
- **National Outcome 9:** We live our lives safe from crime disorder and danger.
- **National Outcome 12:** We value and enjoy our built and natural environment and protect it and enhance it for future generations.
- **National Outcome 15:** Our people are able to maintain their independence as they get older and are able to access appropriate support when they need it.

The priorities for the SFRS have been laid out in the Fire and Rescue Framework for Scotland 2013 with the following Strategic Aims defined within the Strategic Plan 2013-2016:

Strategic Aim 1: Improve safety of our communities and staff

Strategic Aim 2: More Equitable Access to Fire and Rescue Services

Strategic Aim 3: Improved outcomes through partnership

Strategic Aim 4: Develop a culture of continuous improvement

Equality Assessment

On 30 April 2013, the Scottish Fire and Rescue Service published its Equality Outcomes, in compliance with the Equality Act 2010 (Specific Duties) (Scotland) Regulations 2012. The SFRS Equality Outcomes are;

- Outcome 1:** People from all Scotland's community groups feel confident in contacting the Fire and Rescue Service for advice and information on relevant non-emergency issues.
- Outcome 2:** Disabled, LGBT, BME, older people and people from minority faiths are aware of the services provided by the SFRS, particularly how these can be adapted to meet their own individual needs.
- Outcome 3:** People from all Scotland's community groups feel safer in their homes and on our roads.
- Outcome 4:** Establish the Scottish Fire and Rescue Service as an employer of choice for people across protected characteristics.
- Outcome 5:** Provide a positive and healthy workplace culture that welcomes, embraces and develops people from across all protected characteristics.
- Outcome 6:** People from across all communities are enabled to live lives free from hate crime, harassment and domestic abuse/violence.
- Outcome 7:** Gypsy Travellers and migrant workers are safer, better informed and confident in Scottish Fire and Rescue Service engagement.

Our values

Our values framework sets out what we believe to be important in supporting how we deliver our services to the communities and support our own staff. At the core of this, is the safety of the communities we serve and we will do our utmost to enhance and support community safety and place a high value on the safety of our firefighters.

The communities of East Lothian can rightly expect to receive a first class service from the SFRS, grounded in our commitment to actively pursue our values in support of better outcomes.

Local Assessment

The Fire Framework for Scotland 2013 and our own Strategic Plan 2014-2016 give us clear direction in to what areas to focus our resources to ensure we contribute to the safety and well-being of the people living and working in East Lothian. The local assessment addresses issues relevant to the local area. Through analysis of data, partnership working and consultation, local improvement and demand reduction plans can be developed to ensure positive outcomes and results are achieved

The East Lothian Plan – Single Outcome Agreement identifies a number of social issues giving cause for concern in East Lothian. These include an aging population, health issues relating to alcohol and smoking, increasing deprivation, increased home-related injuries and the continuing challenge of road related casualties. The East Lothian Plan also identifies key pieces of work that are designed to introduce preventative measures with the aim of delivering better outcomes to the communities and reducing inequalities across East Lothian.

The key priority areas in East Lothian that are considered in the Local Assessment and those that action plans will be developed for are:

- Reduction of Dwelling Fires
- Reduction in Fire Fatalities and Casualties
- Reduction of Deliberate Fire Setting
- Reduction in Road Traffic Collisions
- Reduction of Unwanted Fire Alarm Signals

Within each of the priorities are a number of performance indicators that will be used to report and track performance against achieving the objectives. The performance indicators are listed in the following table along with an indication of the previous year's performance.

Local Operational Assessment

The table below sets out the key reporting performance indicators that we have identified for East Lothian and the trend over the previous four years. The numbers stated are the number of actual incidents or events.

Performance Indicator	2009/10	2010/11	2011/12	2012/13	Trend
All deliberate dwelling fires	12	7	12	7	←
All accidental dwelling fires	88	81	86	96	↑
All fatal fire casualties	1	0	1	1	←
Non-fatal fire casualties including Precautionary check ups	27	22	25	16	↓
All fatal accidental dwelling fires	1	0	0	1	←
Non-fatal accidental dwelling fires including precautionary check ups	20	19	16	6	↓
All deliberate other building fires	15	8	10	15	←
All deliberate vehicle fires	24	17	9	10	↓
All accidental vehicle fires	31	26	15	21	↓
All deliberate 'other' primary fires	38	28	36	12	↓
All deliberate secondary fires	285	252	242	107	↓
Special service RTCs	45	39	41	29	↓
False alarms AFA	453	496	499	601	↑
False alarm good intent	246	212	185	178	↓
False alarm malicious	37	29	38	28	↓

Table: Four years data of actual incidents and events within East Lothian.

The priorities identified for East Lothian are influenced by the above data. Driving down risk and focusing on the areas where the level of incidents is not reducing is a key aspect of the decision in selection of priorities.

Local Risk Profile

East Lothian has a sizable and diverse community. It is estimated that 99,700 people now live across the area; although the population of East Lothian is relatively small it is forecast to grow at a faster rate than any other local authority over the next 20 years. The highest growth in the population of East Lothian is anticipated to be among the over 65-age group and the 0-15 age group. The number of people aged over 65 is forecast to grow by 77% between 2010 and 2035. Although being older is not a specific risk in its own right, risk is increased when age is combined with other factors, such as living alone, living in poverty and in isolation. Physical and mental health issues also contribute to an increase in risk.

Many people from underrepresented groups or vulnerable individuals can feel isolated within the communities due to a number of reasons, including language barriers and cultural differences. Isolation is not simply a matter of location, but also a matter of being engaged with the wider community. An individual can live surrounded by other people but still be isolated from others and services for any number of reasons. These people may be less likely to seek support from organisations and those around them.

By effectively working with partner agencies we can better promote services to all those who are vulnerable and help to reduce the impact and inequalities, particularly where fire has been used or is a risk factor.

The table below sets out the council wards and local fire stations and local station commander with contact details listed in the contacts section.

PRIORITIES, ACTIONS AND OUTCOMES

1. Reduction of dwelling fires

Dwelling fires across Scotland have steadily been declining over recent years. They are however still 30-35% higher in incidence than the remainder of the UK. Throughout East Lothian, dwelling fires have occurred within a wide variety of homes.

Additional risk factors associated with the cause of fires in dwellings is the consumption of alcohol /drugs and smoking. House fires can have a significant negative impact on both individuals the community and wider public services. Working alongside our community planning partners, we will contribute towards improving home safety for those most at risk and the wider community.

Aligns to:

Scottish Fire and Rescue Service Strategic Aims:

- 1: Improve safety of our communities and staff
- 2: More equitable access to fire and rescue services
- 3: Improved outcomes through partnership
- 4: Develop a culture of continuous improvement.

East Lothian:

- The East Lothian Plan-Single Outcome Agreement (SOA) 2013
- East Lothian Profile
- East Lothian Partnership
- Safe and Vibrant Communities Partnership
- East Lothian Weekly Tasking and Coordinating Group
- Mid and East Lothian Drug and Alcohol Partnership
- Mid and East Lothian Violence Against Women
- East Lothian Ward Profiles

We will achieve it by:

- Active participation in East Lothian Community Planning arrangements and adopting a partnership approach to risk reduction.
- We will establish information sharing protocols with partners to help protect the most at risk in our communities. Key to success will be information sharing between health care, social work, housing and Police Scotland.
- Identifying opportunities for engagement with all members of our community to promote fire safety and good citizenship.

We will contribute towards the Scottish target of a 10 % reduction, over a three-year rolling period.

In doing so we will add value by:

- Helping people to be safe in East Lothian
- Promoting confident & safe communities where residents feel positive about where they live.
- Contributing towards reducing the potential impact on the community and public services.

2. Reduction of fire casualties and fatalities

Fire related deaths and casualties in dwellings in Scotland have shown a significant reduction over the previous twenty years. Scotland however continues to be well above the UK average.

Within East Lothian fire, related casualties have reduced significantly since 2009 across the area. The number of fire casualties and fatalities is below the Scottish average. Trends in fire casualties have shown that those at most risk include people living alone, with smoking and alcohol/drug consumption being contributory factors. The Fire and Rescue Service aims to target a reduction by working closely with partner agencies to identify those most at risk and directing resources towards them to help improve outcomes.

Aligns to:

Scottish Fire and Rescue Service Strategic Aims:

- 1: Improve safety of our communities and staff
- 2: More equitable access to fire and rescue services
- 3: Improved outcomes through partnership
- 4: Develop a culture of continuous improvement.

East Lothian:

- The East Lothian Plan-Single Outcome Agreement (SOA) 2013
- East Lothian Profile
- East Lothian Partnership
- Safe and Vibrant Communities Partnership
- East Lothian Weekly Tasking and Coordinating Group
- Mid and East Lothian Drug and Alcohol Partnership
- Mid and East Lothian Violence Against Women
- East Lothian Ward Profiles

We will achieve it by:

- Active participation in East Lothian Community Planning arrangements and adopting a partnership approach to risk reduction.
- We will establish information sharing protocols with all partners to help protect the most at risk in our communities.
- Identifying opportunities for engagement with all members of our community to promote fire safety and good citizenship.
- Promoting the offer of Free Home Fire Safety Visits to all residents within East Lothian and in particular those most at risk in our community through targeted referrals from partner agencies.

We will contribute towards the Scottish target of a 5 % reduction, over a three-year rolling period in relation to fire casualties and fatalities.

In doing so we will also add value by:

- Helping people to be safe in East Lothian
- Promoting confident and safe communities where residents feel positive about where they live.
- Contributing towards reducing the potential impact on the community and public services.

3. Reduction of deliberate fire setting (not including Dwellings)

Deliberate fire setting is a problem for our communities. In East Lothian, the number of deliberately set fires is well below the Scottish average. There is a link between deliberately set fires and other forms of anti-social behaviour and thus makes it a priority for action.

Aligns to:

Scottish Fire and Rescue Service Strategic Aims:

- 1: Improve safety of our communities and staff
- 2: More equitable access to fire and rescue services
- 3: Improved outcomes through partnership
- 4: Develop a culture of continuous improvement.

East Lothian:

- The East Lothian Plan-Single Outcome Agreement (SOA) 2013
- East Lothian Profile
- Safe and Vibrant Communities Partnership
- East Lothian Weekly Tasking and Coordinating Group
- Antisocial Behaviour Strategy
- East Lothian Ward Profiles

We will achieve it by:

- Engaging in a multi-agency approach to tackling deliberate fire setting and fire related anti-social behaviour by the targeting of resources to those areas of need.
- Continuing in our contribution to the local Anti-Social Behaviour reduction plans and promoting positive outcomes.

Our target against the 3-year average is to continually reduce the number of deliberately set fires.

In doing so we will also add value by:

- Reducing the adverse effects which deliberate fire setting has on peoples' lives within East Lothian.
- Working with partners to reduce anti-social behaviour through education, engagement and activities.

4. Reduction in Road Traffic Collisions

The SFRS have a crucial role to play in contributing and supporting a reduction in road traffic collisions through working with community planning partners.

Road casualty figures in Scotland have reduced significantly over the previous twenty years however, road casualty figures for Scotland show that we cannot lose sight of the work that remains to be done to make our roads safer. From evidence, it has been identified that young drivers and rural road driving are areas of specific risk within East Lothian. We will focus our education and awareness campaigns on these areas.

Aligns to:

Scottish Fire and Rescue Service Strategic Aims:

- 1: Improve safety of our communities and staff
- 2: More equitable access to fire and rescue services
- 3: Improved outcomes through partnership
- 4: Develop a culture of continuous improvement.

East Lothian:

- The East Lothian Plan-Single Outcome Agreement (SOA) 2013
- East Lothian Profile
- Safe and Vibrant Communities Partnership
- East Lothian Weekly Tasking and Coordinating Group
- Go Safe, Scotland's Road Safety Framework for 2020

We will achieve it by:

- Education and awareness aimed at high risk groups within our communities.
- Working with our partners within East Lothian to identify risks and, through this collaboration, identify ways to promote safer driving and make our roads safer.

Our target against the 3-year average is to continually reduce the number of road traffic collisions on the roads in East Lothian.

In doing so we will also add value by:

- Encouraging young drivers and other groups to be responsible road users through active engagement and education.
- Contributing towards reducing the number of people killed or seriously injured on roads in East Lothian.

5. Reduction of unwanted fire signals

Unwanted Fire Alarm Signals (UFAS) are those occasions when an automated fire alarm system activates and results in a mobilisation of Fire and Rescue Service resources, when the reason for that alarm turns out to be something other than a fire emergency.

Within Scotland, the number of UFAS calls remains stubbornly high. The Scottish Fire and Rescue Service attend over 600 UFAS calls last year in East Lothian. This figure has remained at an unacceptable high level for several years and accounts for around 50% of our emergency response activity across East Lothian.

Aligns to:

Scottish Fire and Rescue Service Strategic Aims:

- 3: Improved outcomes through partnership
- 4: Develop a culture of continuous improvement.

East Lothian:

- The East Lothian Plan-Single Outcome Agreement (SOA) 2013
- East Lothian Profile

We will achieve it by:

- Working with the business and commercial sector at a local level to provide advice and guidance in the reduction of unwanted fire alarm signals.
- An enforcement and audit schedule of premises to ensure compliance with legislation.

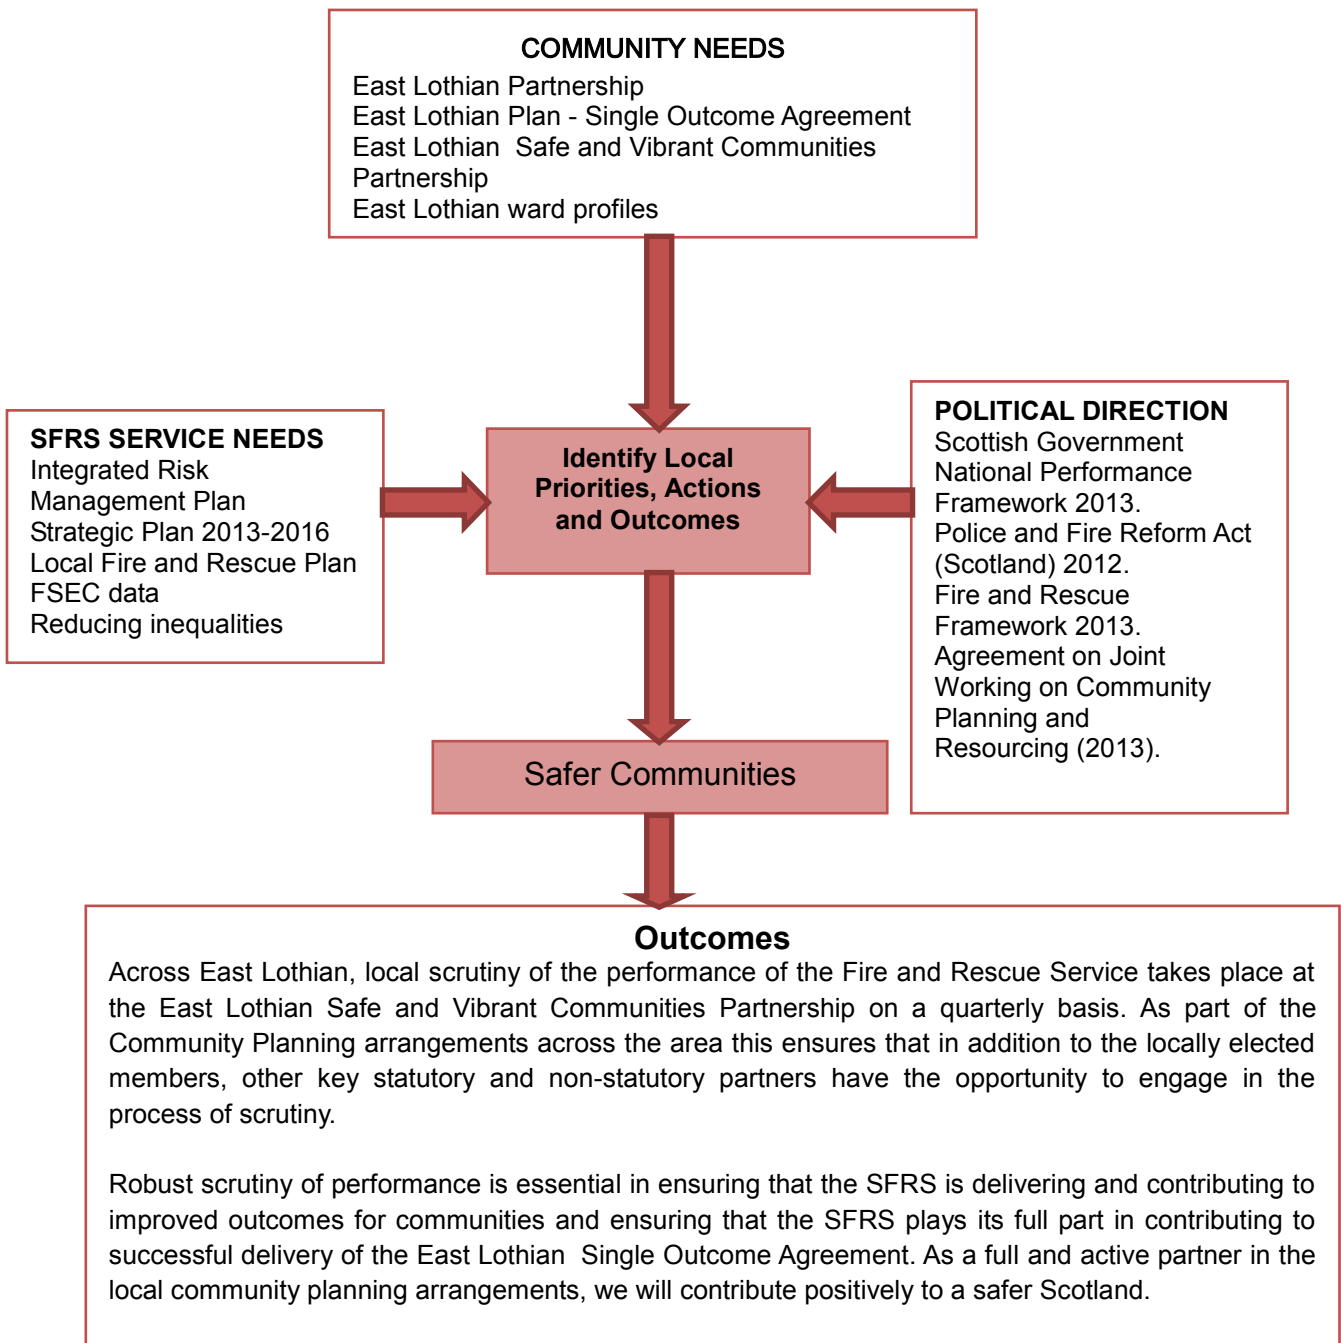

Our target against the 3-year average is to contribute towards a continued reduction in UFAS within East Lothian.

In doing so we will also add value by:

- Reducing time and money lost to local businesses through the provision of advice and guidance.
- Realising efficiency savings by reducing the number of UFAS calls.
- Contributing towards making our roads safer by reducing fire engine movements.
- Contributing towards reducing our carbon footprint through fewer emergency calls.

Achieving Local Outcomes

Local risks were identified following considerations of political direction set by the Scottish Government, community needs identified through consultation and the operational resources and capacity of the SFRS. Following a process of identifying local risks within East Lothian, priority actions to address them and expected outcomes have been set within this plan.

Performance and Accountability

The Fire and Rescue Framework for Scotland 2013 and the Scottish Fire and Rescue Service Strategic Plan sets out a performance framework enabling the SFRS and Local Senior Officer to monitor manage and report performance. This is used to identify areas where resources may need to be directed to enable improved performance against the priorities set out in this plan.

We are committed to ensuring that information on how we are performing in East Lothian is available to the public, local elected members, council officials and any others who may wish to access this information.

Local Scrutiny and Engagement

The Police and Fire Reform (Scotland) Act 2012 supports a framework for local scrutiny and engagement arrangements between local authorities and the Scottish Fire and Rescue Service.

Across East Lothian, local scrutiny of the performance of the Fire and Rescue Service takes place at the Safe and Vibrant Communities Partnership on a quarterly basis. As part of the community planning arrangements across the area this ensures that in addition to the locally elected members, other key statutory and non-statutory partners have the opportunity to engage in the process of scrutiny.

Robust scrutiny of performance is essential in ensuring that the SFRS is delivering and contributing to improved outcomes for communities and ensuring that the SFRS plays its full part in contributing to successful delivery of The East Lothian Plan. As a full and active partner in the local community planning arrangements, we will contribute positively to a safer Scotland.

Low carbon Scotland: Meeting the emissions targets 2010 – 2022

The Scottish Government has set out ambitious targets for reducing emissions by 43% by 2020 across Scotland and in doing so making the most efficient use of energy. The Climate Change (Scotland) Act 2009 and subsequent policies and proposals for how this might be achieved set out clearly the need for all public bodies to contribute to achieving the targets. We will underpin our activity with a concerted effort to examine and seek opportunities to reduce our emissions and identify opportunities to work in partnership to maximise this potential. We will work to support delivery of the outcomes of East Lothian Low Carbon Strategy and Action Plan and in doing so aim to lessen the impact of delivering services on the environment.

Review

To ensure this Local Plan remains flexible to emerging local or national priorities a review may be carried out at any time but will be reviewed at least once in its life time. A review may also be carried out if the Scottish Minister directs it or if a new Strategic Plan is approved. Following a review the Local Senior Officer may revise the Plan.

Glossary of Terms

Accidental: Caused by accident or carelessness. Includes fires which accidentally get out of control.

Casualty: consists of persons requiring medical treatment beyond first aid given at the scene of the incident, those sent to hospital or advised to see a doctor for a check-up or observation (whether or not they actually do). People sent to hospital or advised to see a doctor as a precaution, having no obvious injury, are recorded as 'precautionary check-ups'. Casualty figures do not include fatalities.

Deliberate: covers fires where deliberate ignition is suspected

False Automatic Fire Alarm: is defined as an event in which the Fire and Rescue Service believes they are called to a reportable fire and then find there is no such incident. These can be Malicious, of Good Intent or caused by Apparatus. The False Fire Alarms recorded for our indicator are those caused by Apparatus, as these constitute a significant majority of False Fire Alarm incidents.

Fatality: a casualty whose death is attributed to a fire is counted as a fatality even if the death occurred later. Fatalities associated with Other Incidents can include attendance to assist Police or Ambulance colleagues when a person has been found who has committed suicide, for example. Often there is little we can do as a Service to influence this particular figure.

Primary Fires: includes all fires in buildings, vehicles and most outdoor structures or any fire involving casualties, rescues or fire attended by five or more pumping appliances.

Secondary Fires: These cover the majority of outdoor fires including grassland and refuse fires unless they involve casualties or rescues, property loss or if five or more appliances attend. They include fires in derelict buildings but not chimney fires.
