6. Review procedure

The Local Review Body will decide on the procedure to be used to determine your review and may at any time during the review process require that further information or representations be made to enable them to determine the review. Further information may be required by one or a combination of procedures, such as: written submissions; the holding of one or more hearing sessions and/or inspecting the land which is the subject of the review case.

Please indicate what procedure (or combination of procedures) you think is most appropriate for the handling of your review. You may tick more than one box if you wish the review to be conducted by a combination of procedures.

- Further written submissions
- One or more hearing sessions
- Site inspection
- Assessment of review documents only, with no further procedure

If you have marked either of the first 2 options, please explain here which of the matters (as set out in your statement below) you believe ought to be subject of that procedure, and why you consider further submissions or a hearing necessary.

7. Site inspection

In the event that the Local Review Body decides to inspect the review site, in your opinion:

- Can the site be viewed entirely from public land?
- Is it possible for the site to be accessed safely, and without barriers to entry?

If there are reasons why you think the Local Review Body would be unable to undertake an unaccompanied site inspection, please explain here:

8. Statement

You must state, in full, why you are seeking a review on your application. Your statement must set out all matters you consider require to be taken into account in determining your review. Note: you may not have a further opportunity to add to your statement of review at a later date. It is therefore essential that you submit with your notice of review, all necessary information and evidence that you rely on and wish the Local Review Body to consider as part of your review.

If the Local Review Body issues a notice requesting further information from any other person or body, you will have a period of 14 days in which to comment on any additional matter which has been raised by that person or body.

State here the reasons for your notice of review and all matters you wish to raise. If necessary, this can be continued or provided in full in a separate document. You may also submit additional documentation with this form.

A planning application was submitted proposing to replace the pantile roof with a profile metal sheet roof which would closely resemble a new pantile roof if not the existing pantile roof.

This application was refused consent on the 24th October 2014 because the council claims that "the loss of the existing pantiles from the roof of the building and their replacement with the profiled metal sheeting would radically alter the character and appearance of the building"

We have already been granted permission to radically alter the appearance of the building; this latest proposal would also radically change the appearance but no more so than if we replaced the existing pantiles with new pantiles and we would not require consent for that.

So the question here is not would the profiled metal sheet roofing look radically different to the existing roof but would a profiled metal sheet roof look radically different to a brand new pantile roof and it is clear to us that it would no;, certainly not to the degree that many people would notice and certainly not to the degree that anyone would find the new metal sheet roof offensive in any way.

This is not a listed building, and whilst it may be within the Musselburgh Conservation Area there is little architecture of any merit in the immediate vicinity.
