3 BACKGROUND

3.1 Acts and regulations

The Education (Scotland) Act 1996 Placing Requests Part IV: Section 33, allows education authorities to reserve places for incoming pupils into catchment areas of schools. This has helped education authorities to manage their schools and prevent them being at capacity at commencement of an academic year, and furthermore enabling them to accommodate incoming catchment pupils at their catchment schools when they move into the area during the academic year.

Section 28A (3A) of the Education (Scotland) Act 1980 (as amended) provides a general principle that, "so far as is compatible with the provision of suitable instruction and training and the avoidance of unreasonable public expenditure, pupils are to be educated in accordance with the wishes of their parents". This is what we strive to do, whilst also ensuring that we can accommodate new pupils in their catchment schools. Acceptance of a placing request for a child who is resident out with the catchment area of a specified school could prevent the education authority from retaining reserved places:

- at the specified school, or
- in relation to any particular stage of education at the school.

It is for this reason that the education authority may refuse to grant a placing request that would impact on the ability to reserve places in schools.

Section 28A (3C) of the 1980 Act notes that “reserved places” means those “places (not exceeding such number or, as the case may be, such percentage of places at the school or relating to a particular stage of education as may be prescribed by regulations) as are in the opinion of the education authority reasonably required to accommodate pupils likely to become resident in the catchment area of the school in the period from the time of consideration of the placing request up to and during the year from 1 August to which the placing request relates”.

Therefore, when establishing the number of reserved places required for a school, we have to consider the likely number of pupils becoming resident in the catchment area of the school during the coming academic year. We analyse various factors when deciding how many places should be reserved. These are detailed in Sections 3.2.1 to 3.2.3.

3.2 Factors influencing the decisions on reserving places

3.2.1 The following factors have to be considered for both primary and secondary schools when we are determining the appropriate number of reserved places that are likely to be required for pupils moving into the catchment area of the school during 2015/16:

- a) The proposed level of capping at the school and number of expected pupils
- b) Local development plans
- c) Current and planned house builds within those plans
- d) Projected school rolls
- e) Projected migration into the catchment area
- f) Information about reserved places from previous years
- g) School capacities
- h) Information known to us, for example, about families moving into the area before/after commencement of the academic year.

3.2.2 For secondary schools, where it has been identified that reserved places are likely to be required, we propose that a minimum of one place be reserved for every 30 pupils (rounded to the nearest 30 where the class intake has been capped). Pupils are timetabled in secondary schools in groups of 20 for practical classes and 30 for non-practical classes. In addition, rooms in schools are only furnished to accommodate a maximum of 30 pupils per non-practical class. The factors noted above shall then be considered to confirm whether this number is reasonable and reflects the number of pupils likely to become resident in the catchment in the coming academic year. The number of reserved places can then be increased or decreased accordingly. This method allows an immediate number of reserved places to be identified and then adjusted to ensure it fairly reflects both the education authority’s requirements and the legislation.

3.2.3 Calculating the number of reserved places and pupil placement affected by the numbers of pupils moving into and out of East Lothian. The situation is also affected by late applications and pupils being withdrawn from schools. This can mean the demand for places in a school for pupils in the catchment area can change before academic year begins. The number of reserved places in this report reflects our current understanding of the likely number of pupils that we think will be in each catchment area or moving into it during the next academic year. Should some of the reserved places at schools not be required or the situation change, the Committee is asked to delegate any increase or decrease in reserved places to the Head of Education, who will consult with the Convener. If the reserved places detailed in this report are agreed by the Committee, they will be protected for incoming catchment pupils. If it is not possible to reserve all these places before the academic year begins, then we still intend to protect them so that they are there as reserved places for catchment pupils who come in during the year. Committee members will be contacted where changes to reserved places are made in their wards.
