

## **Key to using the Proposals Map**

This proposals map forms part of the Local Development Plan 2016. It consists of a number of inset maps which must be read together to identify the relevant policy designations and proposals for any area within East Lothian.

Four of these inset maps have been produced at the East Lothian scale and identify policy designations that are best shown at that East Lothian wide scale:

Inset Map 1: International and National Natural Heritage Designations:	<ul style="list-style-type: none"> <li>• RAMSAR Sites</li> <li>• Special Protection Areas</li> <li>• Sites of Special Scientific Interest</li> <li>• Geological Conservation Review Sites</li> </ul>
Inset Map 2: Local Natural Heritage Designations:	<ul style="list-style-type: none"> <li>• Biodiversity Sites</li> <li>• Geodiversity Sites</li> <li>• John Muir Country Park</li> <li>• Aberlady Bay</li> </ul>
Inset Map 3: Landscape Designations & Infrastructure Designations	<ul style="list-style-type: none"> <li>• The Countryside</li> <li>• Gardens and Designed Landscapes</li> <li>• Greenbelt</li> <li>• Countryside Around Towns</li> <li>• Pipeline Consultation Zones</li> <li>• Torness Consultation Zone</li> <li>• Edinburgh Airport Safeguarding Zone</li> <li>• Segregated Active Travel Corridor</li> <li>• The indicative line of the proposed 4 track section of the East Coast Main Line</li> </ul>
Inset Map 4: Further Landscape Designations	<ul style="list-style-type: none"> <li>• The Coast</li> <li>• Special Landscape Areas</li> </ul>

The remaining inset maps have been produced at settlement scale and identify the relevant policies and proposals that apply within each of the settlements of East Lothian. Other than for the greenbelt, countryside around towns and the countryside, the policy designations shown on the East Lothian wide inset maps will not be repeated at the settlement inset map level. Therefore for completeness the settlement inset maps must be read in conjunction with the relevant parts of each of the East Lothian wide inset maps that relate to the settlement in question. For ease of reference these settlement maps are listed in alphabetical order :
