Description of Proposal

Please provide a description of your proposal to which your review relates. The description should be the same as given in the application form, or as amended with the agreement of the planning authority: *
(Max 500 characters)

Replacement glazing in windows and formation of dormers

Type of Application

What type of application did you submit to the planning authority? *

- Application for planning permission (including householder application but excluding application to work minerals).
- Application for planning permission in principle.
- Further application.
- Application for approval of matters specified in conditions.

What does your review relate to? *

- Refusal Notice.
- Grant of permission with Conditions imposed.
- No decision reached within the prescribed period (two months after validation date or any agreed extension) – deemed refusal.

Statement of reasons for seeking review

You must state in full, why you are seeking a review of the planning authority's decision (or failure to make a decision). Your statement must set out all matters you consider require to be taken into account in determining your review. If necessary this can be provided as a separate document in the 'Supporting Documents' section: * (Max 500 characters)

Note: you are unlikely to have a further opportunity to add to your statement of appeal at a later date, so it is essential that you produce all of the information you want the decision-maker to take into account.

You should not however raise any new matter which was not before the planning authority at the time it decided your application (or at the time expiry of the period of determination), unless you can demonstrate that the new matter could not have been raised before that time or that it not being raised before that time is a consequence of exceptional circumstances.

The statement review is in two parts, firstly the fitting of slimline double glazing units to the two front street elevation windows and secondly the enlarging and combining of the two small single dormers on the roof at the rear. See Supporting Document for the full details of the statement.

Have you raised any matters which were not before the appointed officer at the time the Determination on your application was made? *

Yes No

If yes, you should explain in the box below, why you are raising the new matter, why it was not raised with the appointed officer before your application was determined and why you consider it should be considered in your review: * (Max 500 characters)

The specification of the 'Slimline Double Glazed Units' was incorrectly noted on the drawings, our error, and the thickness stated would have had an impact on the outcome of the planning submission. While 'Slimline Double Glazing Units' was specified the sizes were for standard double glazed units which would not fit within the existing sash and case windows.

Please provide a list of all supporting documents, materials and evidence which you wish to submit with your notice of review and intend to rely on in support of your review. You can attach these documents electronically later in the process: * (Max 500 characters)

Supporting statement, Photo of the existing rear elevation of the property.

Application Details

Please provide details of the application and decision.

What is the application reference number? *

18/01280/P

What date was the application submitted to the planning authority? *

26/11/2018

What date was the decision issued by the planning authority? *

01/02/2019

Can the site be clearly seen from a road or public land? *
