**Vision for the Community Justice Partnership**

The East Lothian Community Justice Partnership (referred to in the remainder of this document as ‘the CJ Partnership’) exists to promote equality and drive local community planning activity to improve outcomes for people wherever they are on the justice pathway, and to improve outcomes for their families, victims and the wider community.

The CJ Partnership, a constituent part of the East Lothian Partnership, oversees the planning and delivery of community justice and will strengthen the coordination of services in East Lothian, which will help in the prevention of offending or reoffending.

The CJ Partnership will focus on making the most of the services and resources available within statutory partner organisations operating in East Lothian and in East Lothian communities and in wider partnerships. The CJ Partnership aims to deliver services that are joined-up and responsive to local need and in doing so recognising local strengths and areas for improvement.
